GOOD CLINICAL LABORATORY PRACTICE
(GCLP)

About this Course

GCLP guidance identifies the systems required and procedures to be followed within an organisation which conducts analysis of samples from Clinical Trials in compliance with the requirements of Good Clinical Practice (GCP). This interactive and engaging GCLP course provides an understanding of the framework for a quality system in analysis of Clinical Trial samples. It will ensure that all laboratory processes and results are GCLP-compliant.

Who is the course suited to?

This professionally developed, interactive and engaging online course is essential for Sponsors, laboratory management, project managers, CRAs and quality assurance personnel.

Course Contents

Module 1
