

## About This Course

This course helps to prepare all those working within clinical research to understand the audit process. It will ensure each individual is competent and confident in their role in an audit. Audits are very much part of clinical research and it is vital for individuals and companies to ensure they are audit ready at all times rather than wait until an audit is expected.

## Who is the course suited to?

This is a professionally developed, interactive and engaging online course suitable for anyone working in any role within clinical trials who wishes to gain an in depth knowledge of audits and inspections.
